PresbyterySite provides you a website like the one you are using, which uses [Joomla](#) as its content management system just like PresbyterySite does. So anything in this website could be put into yours.

PresbyterySite provides you with the following custom-built Joomla plugins, which you can try out without logging in by clicking on any of the links below:

- [Congregations](#)
- [Map](#)
- [Committees](#)

To see PresbyterySite's administration interface, [login](#) with the following and then click on any of the links above:

    Username: ps_demo
    Password: ps_demo

Feel free to edit any info in the demo to see how it works!
